Small Grants Program
Historic Summary 2002-2017

YEAR	PERSON	STATE	DOLLARS	RESEARCH TOPIC
2002	Kari Jacobson	MN	962	Control of invasive smooth brome grass
2002	John Tooker	IL	895	Effects of fire on insects specializing in *Silphium* spp.
			1857	
2003	Jeffrey Gruber	WI	1000	Nest inquilines of *Aphaenogaster* ants on bluff prairies
2003	Keith Summerville	IA	775	Microlepidoptera survey in savanna remnants
			1775	
2004	Richard Bautz	WI [1]	1000	Inventory and assessment of Franklin's ground squirrel
2004	Richard Clinebell	MO	1000	Prairie pollinator survey
2004	Terry Harrison	IL	972	Microlepidoptera survey of hill prairies
2004	Chiara Hemsley	IA	500	Inventory of solitary bees on tallgrass prairie remnants
2004	Zachary Hillman	CO	669	Spider survey of Comanche National Grasslands
2004	Tracey Johnson	KS	912	Effects on plants and birds of grazing tallgrass prairie
2004	Joshua Kapfer	WI [1]	1000	Effects of prairie management on bull snakes
2004	Ursula Petersen	WI [1]	1000	Soil chemistry relating to eastern prairie fringed orchid
			7053	
2005	Richard Bautz	WI [1]	1000	Inventory and assessment of Franklin's ground squirrel
2005	Andrea Blong	IA [2]	1000	Use of native cover crops in prairie restoration
2005	Nicolette Cagle	NC	1000	Effects of habitat fragmentation on prairie snakes in IL
2005	Kevin Grady	AZ	1000	Effects of tallgrass prairie restoration on ground beetles in IL
2005	Hank Guarisco	KS	1000	Spider survey of Comanche National Grasslands
2005	Terry Harrison	IL	878	Microlepidoptera survey of hill prairies
2005	Sarah Kraszewski	WI [1]	1000	Flora of dry lime prairies 50 years after earlier survey
2005	Kyle Kwaiser	IA [2]	997	Survey of native bees in hill prairies
2005	Scott Meiners	IL	999	Effect of seed source population size on restoration success
2005	Adam Wallner	IL	995	Development of an insect index to tallgrass prairie health
			9869	
2006	Rebecca Andres	ND	500	Effects of tallgrass prairie management on native bees
2006	Mary Damm	IN	1000	Micorrhizal fungi in tallgrass prairie in IA
2006	Daniel Fogell	NE	1000	Disturbance effects on massasauga rattlesnakes
2006	Stephen Hendrix	IA [2]	1003	Ongoing study of native bees
2006	Emily Kluger	IL	965	Study of prairie endemic weevil *Haplorhynchites aeneus*
2006	Seth Magle	CO	500	Effect of urbanization on black-tailed prairie dog
2006	Jessica Orlofske	IA [2]	1000	Development of an insect index to tallgrass prairie integrity
2006	Adam Rollins	AR	500	Study of prairie myxomycetes (slime molds)
2006	Neil Sawyer	WI [1]	900	Pollen limitation in two species of *Asclepias*
2006	Keith Summerville	IA [2]	1000	Restoration of prairie insect diversity in agricultural landscapes
2006	Amy Wolf	WI	1000	Survey of native bees in prairie remnants
2006	Kathryn Yurkonis	IA	1000	Regulating invasibility in prairie restorations
			10368	
2007	John Barone & JoVonn Hill	GA & MS	450	Restoration of native ant communities
2007	Kate Bradley	MI	1000	Study of invasive weevil infesting Threatened Hill's thistle in WI
2007	Johanna Foster	IA [2]	900	Flora and fauna survey of college-owned prairie
2007	Mike Healy	WI [1]	1000	Control of invasive reed canary grass in wet prairie
2007	Stephen Hendrix	IA	1000	Use of artificial nests by mason bees in prairie remnants
2007	Jennifer Hopwood	IA [2]	1000	Effects of isolation and time on pollinators in restorations
2007	Tracey Johnson	OR	950	Effects of livestock grazing on nesting birds
2007	Jessica Orlofske	IA	1000	Development of an insect index to tallgrass prairie integrity
2007	Nicholas Schmidt	IA [2]	1000	Soybean aphid control in crops; natural enemies in prairies
2007	Tim Vargo	WI [1]	1000	Population monitoring of Threatened Butler's garter snake
2007	Adam Wallner	IL	950	Development of an insect index to tallgrass prairie health
			10250	

[1] Funds restricted to research in Wisconsin.
[2] Funds restricted to research in Iowa.

Small Grants Program
Historic Summary 2002-2017

YEAR	PERSON	STATE	DOLLARS	RESEARCH TOPIC
2008	Moni Berg-Binder	IL	1000	Seed dispersal by ants of invasive leafy spurge, *Euphorbia esula*
2008	Diane Byers	IL	1000	Effects of habitat fragmentation on reproduction of *Lobelia spicata*
2008	Matthew Cross	MI	1000	Response of Eastern Massasauga Rattlesnakes to prescribed burns
2008	Rebecca Curland	WI [1]	1000	Mycorrhizal fungi in a prairie invaded by leafy spurge, *Euphorbia esula*
2008	Rachel Gross	IL [3]	980	Effect of prescribed fires on belowground process in tallgrass prairie
2008	Emily Henry	TX	960	Microhabitat selection of Texas horned lizard in northern Texas
2008	Sandra James-Yi	IL	925	Study of water mites of the Northeastern Morainal Prairie of Illinois
2008	Kyra Krakos	MO	1000	Pollination biology of *Oenothera* species in Oklahoma prairies
2008	Elizabeth Middleton	IN	960	Effects of native prairie soil addition to restorations on farmed land
2008	Nicole Miller	MO [4]	1000	Plant-pollinator interactions in prairie and glade ecosystems
2008	Wayne Ohnesorg	IA [2]	1050	Iowa survey for a new species of aphid recently found in central Iowa
2008	Wendy Phillips	OR	1000	Role of mycorrhizal fungi in preservation of native prairies
2008	Matthew Richardson	IL	1000	Ploidal diversity of host plants influences on insect community
2008	James Stroh	IA [2]	1050	Small mammal survey in northern loess hills of western Iowa
2008	Rebecca Tonietto	IL	1000	Effects of urban fragmentation on pollination in Illinois prairies
			14925	
2009	Andrew Berger	IL [3]	882	Terrestrial habitat use & movement of juvenile yellow mud turtles
2009	Susan K. Chamberlain	WI [1]	1000	Effects of different grazing regimes on warm season grass varieties
2009	Katherine Chi	IL [3]	980	Reproductive ecology & population genetics of *Besseya bullii*
2009	Stacy Duckett	TX	1000	Monitoring a translocated population of black-tailed prairie dogs
2009	C. L. Hall & D. R. Howard	ID	1000	Disturbance ecology of *Nicrophorus americanus* in Oklahoma
2009	Thor Hanson	WA	1000	A survey of bees in prairie remnants of the San Juan Archipelago
2009	Stephen Hendrix	IA [2]	1000	Use of native and introduced plants by cavity-nesting bees
2009	Erica Henry	WA	1000	Characterizing the habitat requirements of a skipper, *Polites mardon*
2009	Kathleen Kieler	WI [1]	1000	Analysis of hymenoptera sampled from a prairie/savanna remnant
2009	Raffica J. La Rosa	MI [5]	1000	Natural selection by pollinators on floral traits in three milkweeds
2009	D. J. Martin & Tom Mathies	CO	982	Habitat correlates & occupancy rates, herptiles, shortgrass prairie
2009	Russell L. Minton	LA	750	Land snails: documenting Louisiana's prairie & bottomland fauna
2009	William E. Peterman	IN	1000	Crawfish frog populations & amphibians on reclaimed surface mines
2009	Steven M. Roels	KS	1000	Herbivory & reproduction of Mead's milkweed (*Asclepias meadii*)
2009	Robert Stanton	IL [3]	900	Plant host associations and movement of two prairie cicadas
2009	Irma Tapia	IA [2]	1000	Genetic diversity & connectivity in white-tailed jackrabbits in Iowa
2009	Robin Verble	AR	1000	Inventory of ants in Arkansas prairies, especially relating to fire
2009	Whitman-Zai & M. Francis	CO	1000	Field study of prairie funnel web spiders, *Agelenopsis* spp.
2009	Jim Wiker	IL [3]	1000	Lepidoptera survey on hill prairies & glades of Mississippi River bluffs
2009	Eric Matthew Wood	WI [1]	1000	Importance of savanna to butterfly communities
			19494	
[1] Funds restricted to research in Wisconsin.				
[2] Funds restricted to research in Iowa.				
[3] Funds restricted to research in Illinois.				
[4] Funds restricted to research in Missouri.				
[5] Funds restricted to research in Michigan.				

YEAR	PERSON	STATE	DOLLARS	RESEARCH TOPIC
2010	Moni Berg-Binder	IL	988	Are *Formica* ant mounds favorable microhabitats for leafy spurge?
2010	Marguerite Brandenburg	IA [2]	1000	Reproductive ecology of white-tailed jackrabbit in central Iowa
2010	Scott Chamberlain	TX	896	Pollinator communities of crop & wild sunflowers (*Helianthus annuus*)
2010	Peter Christensen	ND	1000	Prairie pothole wetland invertebrate community structure in ND
2010	Adam Clause	CA	900	Study of federally "Threatened" ground beetle, *Elaphrus viridis*, in CA
2010	Jennifer M. Duggan	IL	1000	Movement of Franklin's ground squirrel in prairie & ag. land in Illinois
2010	Jennifer E. Hansen	NM	978	Black-tailed prairie dog: resurvey & remote sensing methodology
2010	William H. Heyborne	IA [2]	1000	Expansion of current research on land snails of Iowa's Loess Hills
2010	Steve Hummel	IA	850	Survey of dragonflies and damselflies in South Dakota
2010	Cara Joos	MO	1000	Fitness and habitat selection of Bell's vireo in central Missouri
2010	Kaylan Kemink	MO	923	Historical and field study of greater prairie-chicken in Missouri
2010	Frank T. Krell	CO	975	Expansion of current study of bison dung beetle fauna in Colorado
2010	Kenneth W. McCravy	IL [3]	1000	Native bees of west-central Illinois: diversity & survey methodology
2010	L. Brian Patrick	SD	748	Spider and beetle diversity in pristine prairie vs. CRP planted prairie
2010	Ryan B. Stephens	WI [1]	1000	Small mammal assemblages and habitat associations in WI prairies
2010	Rebecca Tonietto	IL	1000	Effects of prairie restoration on bee-pollination ecosystem services
2010	Joshua L. Wallace	WA	1000	Various cover board styles in test of reptile sampling technique
2010	Ted Wilson	IA [2]	1000	Insect collection & cataloging at the Sioux City Prairie, in Iowa
			17258	
2011	N. Bernstein & T. Rosburg	IA [2]	1000	Sand dune succession following removal of pine planting...box turtles
2011	Lauren Diepenbrock	MO	1000	Comparison of lady beetle diversity and composition across habitats
2011	Peter Eyheralde	IA [2]	1000	Seed dispersal by bison in tallgrass prairie
2011	Johanna Foster	IA [2]	1000	Bison wallow effects on beetle communities
2011	Kent Fothergill	MO	992	Carabidae of Missouri sand prairies
2011	Eric Gangloff	CO	1000	Project Thamnophis, a study of snakes involving high school students
2011	Stephen Hendrix	IA [2]	1000	Are wild bee communities declining?
2011	Scott King	MN [6]	1000	The dragonfly *Sympetrum madidum* in northwestern Minnesota
2011	Jennifer Palladini	MT	1000	Influence of herbicides on native bees
2011	John Placyk	TX	1000	Natural history of a blackland prairie snake
2011	Allison Sacerdote	IL [3]	910	Assessment of smooth green snake habitat use and movements
2011	Paul Skrade	IA	1000	Migration and wintering of mountain plovers
2011	Robert Stanton	NE	1000	Plant host associations...cicada *Tibicen dorsatus* in tallgrass prairie
2011	Keith Summerville	IA [2]	685	Use of grazing as a management tool to increase butterfly diversity
2011	Kaitlin Uppstrom	OH	1000	Biodiversity of ants and mites in prairies
2011	Bill Welch	KS	1000	Herpetefauna survey, involving high school students
2011	Jeremy White	NE	1000	Distribution of the plains pocket mouse in the Loess Hills
			16587

Historic Summary 2002-2017

YEAR	PERSON	STATE	DOLLARS	RESEARCH TOPIC
2012	Amy Alstad	WI [1]	990	Sixty-year changes in prairie plants species composition
2012	Susan Kirt Alterio	IL	1000	Ants in prairie: Responses and implications of grassland restoration
2012	A. W. Cafarelli	NY	900	Monitoring and augmentation of Endangered *Agalinis acuta*
2012	Rachel Hannah Fendrich	CO	1000	Early life history of ornate box turtle: *Terrapene ornata ornata*
2012	R. Forkner & P. Van Zandt	VA & AL	1000	Insects and rhizobia associated with three species of wild indigo
2012	Amanda Fujikawa	NE	1000	Survey of Sandhills blow flies (Diptera: Calliphoridae) in Nebraska
2012	Chris Helzer	NE	1000	Using insects to evaluate success of prairie reconstruction efforts
2012	Mikael Holgersson	IL	1000	Snake community cover board survey in bluffs by Lower Rock River
2012	Jean Huffman	FL	1000	*Andropogon virginicus* cover and floristic diversity after 20 years of fire
2012	J. Knudsen & R. M. Adams	NE	1000	Charismatic mini-fauna: Jumping spiders of eastern Nebraska
2012	Matthew Lattanzio	OH	1000	Effects of grazing on tree lizard populations in arid grasslands in AZ
2012	Malcolm MacFarlane	MN	1000	Survey for prairie moonwort in southwestern Wisconsin
2012	Mara McDonald	WI [1]	1000	Bird communities of the Biocore Prairie
2012	Bryan McLean	NM	900	Documenting the range of Wyoming ground squirrel in Colorado
2012	Amy Sullivan	IL	980	Spatial patterns of vole foraging and plant damage in tallgrass prairies
2012	Laura Winkler	SD	1000	Survey of ants in remnant tall grass prairie sites in eastern SD
2012	Alan Yanahan	IL	1000	Ground beetle communities in rare sandy habitats in Illinois
2012	Jennifer Zavaleta	TX	1000	Interviews about restoration in sand shinnery oak communities
			17770	
2013	Mike Arduser	MO	950	Native bee survey of Lynx Prairie, Adams Co., Ohio
2013	Hsiaochi Chang	OH	1000	Effects of gene flow from CRP to remnant switchgrass in Kansas
2013	John Delaney	IA [2]	1000	Seasonal succession of flowers for pollinators in four grassland types
2013	James Doyle	WI [1]	1000	Ecology of the American badger in southwest Wisconsin
2013	Christian Elowsky	NE	1000	Succession of necrophagous insects in a virgin prairie system
2013	Charlotte Gabrielsen	WY	1000	Climate change effects on wetlands across the Prairie Pothole Region
2013	Eric Gangloff	IA [2]	1000	Behavioral adaptation to climate change in gartersnakes in Iowa
2013	Lawrence Haimowitz	WY	1000	Study of parasitoid wasps of shortgrass prairies in Wyoming
2013	Scott Haire	MN	1000	Survey of bees in dry sand prairies in southern Minnesota
2013	Mary Harris	IA [2]	1000	Iowa native bee biodiversity assessment
2013	Julia Janicki	WI [1]	1000	A survey of the primitive weevils of Wisconsin
2013	Kelly Ksiazek	IL	1000	Can designing green roofs as prairie analogs benefit native species?
2013	William Mausbach	OK	1000	Branchiopod community structure in the Nebraska Sandhills
2013	Robby McMinn	KS	1000	Demographic structure and genetic variability of Platte thistle
2013	Corey Raimond	WI [1]	1000	Lined snake (*Tropidoclonion lineatum*) surveys in southwest WI
2013	Kathy Roccaforte	KS	990	Effects of management history and land use on plants and pollinators
2013	Alexey Shipunov	ND	830	Floristic survey of Lake George savanna region in North Dakota
2013	Matthew Troia	KS	970	Effects of global warming on hatch success of prairie stream fishes
2013	Ashley West	IA	1000	Bur oak blight: Does acorn size correlate with resistance?
2013	Shelly Wiggam-Ricketts	KS	1000	Utility of patch-burn grazing as a conservation tool for pollinators in KS
			19740

Historic Summary 2002-2017

YEAR	PERSON	STATE	DOLLARS	RESEARCH TOPIC
2014	Susan Kirt Alterio	IN	1000	Praire ant association with soils
2014	Amanda Bachmann	SD [7]	1000	Backyard biodiversity in South Dakota
2014	James Bess	MI [5]	1000	A survey for rare alvar grassland insects in Michigan
2014	Janice Bossart	LA	1000	Bees in savannas: Pollinators in peril?
2014	Chris Carlson	MT	1000	Re-survey of vegetation of Montana's "Palouse" grasslands
2014	Gregory Colores	MI [5]	1000	Cyanobacterial diversity of the Maxton Plains Grassland Alvar
2014	Brant Douville	SD [7]	1000	Quantification of vegetation change 1939-2014 in South Dakota
2014	Sean Griffin	NJ	1000	Native bee communities in restored tallgrass prairies in Illinois
2014	Chelsea Gunther	WI [1]	1000	A study of the northern blue butterfly in Wisconsin pine savannas
2014	Allysa Hallett	WI	970	A study of whorled milkweed's reproduction biology in Wisconsin
2014	Thelma Heidel-Baker	IA [2]	1000	Bee nesting tubes for bee conservation
2014	Eric Knutson	CO	1000	Spiders and shrubs in the High Plains of Colorado
2014	Katie LaMagdeleine	IL	630	Ground beetles along a chronosequence of prairie restorations
2014	David Loney	IA [2]	1000	Ants as indicators of successful prairie restoration
2014	Daphne Mayes	KS	1000	Nest parasites of native bees in remnant and restored prairies
2014	Katherine Nesheim	VA	840	Rogadinae (Hymenoptera: Braconidae) diversity at Konza Prairie
2014	Callie Ochs	IA [2]	1000	Monitoring sand prairie plant succession after removal of pines
2014	Kimberly O'Keefe	KS	1000	Hydraulic lift in a tallgrass prairie in Kansas
2014	Brittany Owens	LA	950	A survey of Pselaphinae in Louisiana's Cajun Prairies
2014	Gareth Powell	IN	1000	Beetles associated with plains pocket gophers in Kankakee Sands
2014	Thomas Purdom	WI [1]	1000	A study of spiders in biofuel grasslands in northeast Wisconsin
2014	Eric Sievers	MO	820	Reintroduction biology of ornate box turtle in northern Illinois
2014	John Sovell	CO	350	Pawnee Montane Skipper census, year 3 (2014)
2014	Jessica Megan Steinweg	WI [1]	1000	Lichen diversity in a Wisconsin sand prairie
2014	Joshua Stepanek	CO	1000	Diatoms from prairie pothole lakes in North Dakota
2014	Jason Strickland	FL	1000	Snake speciation in the Deming Plains Prairie in southwestern U.S.
2014	Jason Vizelka	WI [1]	975	How do changes in bumble bee abundance affect pollination success?
2014	Jessica Warwick	MO	1000	Macroinvertebrates of prairie headwater streams in Missouri
2014	Bill Welch	KS	1000	Lizard and amphibian survey of Gerber Reserve in Kansas
2014	Amanda Williams	CO	960	Do agricultural systems help or hinder bat populations?
2014	Eugene Young	KS	1000	Algae of Slate Creek Wetlands in Kansas

Prairie Biotic Research, Inc.
Small Grants Program
Historic Summary 2002-2017

YEAR	PERSON	STATE	DOLLARS	RESEARCH TOPIC
2017	Jesse Alston	WY	1000	Hibernation timing of bats at Jewel Cave, South Dakota
2017	Grace Baumgartner	IA [2]	750	Bird biodiversity in grazed pastures vs. restored prairies in central IA
2017	Rachel Becknell	MO	1000	Biodiversity & restoration: plant-soil interactions in grasslands in MO
2017	Megan Blanchard	CO	970	An unexpected lupine, caterpillar, and fungal interaction in Texas
2017	Cameron Clay	CA	960	Earthworms and plants in coastal California prairie
2017	Catherine Dana	IL	1000	Assessment of isolated populations of prairie cicadas in Illinois
2017	Drew Davis	SD	1000	Amphibian & reptile surveys in remnant prairies in southeastern SD
2017	Brenna Decker	IL	750	Effects of burn timing on native bee and floral communities in Illinois
2017	Kirstie Feller	IL	1000	Effects of coyote exclusion on small mammals & plants in Illinois
2017	Jeremy French	IA [2]	1000	Herpetofauna diversity & abundance relating to bison in Iowa prairie
2017	Emily Geest	NE	1000	Influence of milkweed gardens on rates of parasitization of monarchs
2017	Sean Griffin	NC	1000	Effects of prairie restoration on wild bee population genetics in Illinois
2017	Angelina Haines	AL	1000	Ecosystem management and fire ants in Georgia & Florida
2017	Joshua Harrison	NV	1000	Fungal endophytes of locoweeds and their influence on seed predation
2017	Heather Herkovich	IL	1000	Grassland birds relating to the reintroduction of bison in Illinois
2017	Hess & van der Linden	WI [1]	1000	Invertebrates using Kittentails in Wisconsin
2017	Jacob Hopkins	KS	1000	Temporal patterns of plant and soil microbes in pine savannas in GA
2017	Sheryl Hosler	IL	1000	Dung beetles and restoration management in prairie in Illinois
2017	Dale Kruse	TX	1000	Bryophyte and lichen flora of the north central TX Walnut Formation
2017	Joseph LaRose	MO	1000	Bees & grasshoppers in reconstructed & remnant Missouri prairies
2017	David Loney	IA [2]	1000	Ants in old-growth and secondary grasslands in Iowa
2017	Theo Michaels	KS	1000	Conservation of prairies: monoliths as catalysts for restoration in KS
2017	Paula Kleintjes Neff	WI [1]	1000	Karner blue butterfly and its larval host plant in Wisconsin
2017	Nathaniel Nelson	KS	830	Survey of *Macrobdella* spp. leeches in Kansas
2017	Kyle O'Connell	TX	1000	Influence of habitat & cattle grazing on tiger salamanders in Nebraska
2017	David Penning	MO	1000	Survey of amphibians and reptiles on a tallgrass prairie in Missouri
2017	Payton Phillips	MI	1000	Genetics of black-footed ferrets relating to plague in South Dakota
2017	Lewis Reed	CA	1000	Pollen foraging by halictid bees in *Sorghastrum nutans* in Illinois
2017	Ryan Reihart	OH	1000	Are rasberry crazy ants altering coastal prairie food webs in Texas
2017	Kyle Schnepp	FL	1000	Beetles of subterranean habitats in the Southeastern Coastal Plain
2017	David Stagliano	MT	900	Rare mayfly survey in the large prairie rivers of Montana
2017	Kate Wilkins	CO	1000	Grassland birds and mammals relating to bison reintroduction in CO
2017	Reese Worthington	MS	1000	*Hydrochus* spp. beetles in natural vs. restored prairie remnants
			32160	
		TOTAL	**264236**	**275 grants**

[1] Funds restricted to research in Wisconsin.
[2] Funds restricted to research in Iowa.
